II. COURSE INFORMATION

COURSE OBJECTIVES
The primary objective of this course is to explain current international economic relations in the light of international trade theories. The second objective is to help students in understanding recent international economic relations between Turkey and other countries.

COURSE DESCRIPTION

COURSE METHODOLOGY
Main Topics will be instructed by the lecturer. But case studies and problems related with international prices will be solved by the students. The students will be asked to make comments on recent international economic relations.

COURSE REQUIREMENTS
As it is the prerequisite of this course, students are expected to have taken and completed ECON 102 Introduction to Economics II.

GRADING INFORMATION & CRITERIA
40% of the midterm exam and 60% of the final exam constitute the raw grade of the course. Raw grade is then converted into letter grade through the curve system. The outcomes are e-mailed to the students.
